

POINTERS RING SIZE GUIDE

To determine the size of ring is never a hard thing. To help you, we've prepared a simple guide to determine the size of ring that will fit your finger.

There are a few basic guidelines to ensure an accurate measurement:

- The ring must be fitten comfortably on the finger.
It must be snug enough to not fall off, but loose enough to not slide off the knuckle.

- Measure the finger size several times to ensure accurate reading.

MEASURING EXISTING RING

If you would like to purchase a ring as a surprise,
we suggest you to print and cut out the below box and measure along the finger.

Print this page, ensuring that page scaling is set to none in the print dialog box. Measure the bar on the right and make sure it measures exactly 30mm.

1. Select a ring that properly fits the intended finger.
2. Place the ring over the circles below, lining up the inside edge of the ring with the circle nearest in size. This measurement refers to the inside diameter of the ring.
3. If your size is between two sizes, opt for the larger of the two.
